PROFILE

Final-year BSc IT student at the University of Johannesburg (Informatics and Computer Science). I spend my own time building working systems, including a point-of-sale system and an Android app that syncs over a local network. Comfortable with Windows, networking fundamentals and SQL databases, and quick to pick up new tools.

TECHNICAL SKILLS

Networking | TCP/IP, subnetting, DHCP and DNS fundamentals; basic connectivity troubleshooting
Windows | Windows 10/11 setup and troubleshooting; basic Microsoft 365 and Active Directory
Databases | MySQL, SQL Server
Programming | Java, C#, Kotlin (Android), JavaScript, SQL; Spring Boot, ASP.NET Core, JavaFX
Tools | Git, Visual Studio Code, Android Studio, Eclipse, Gradle, Maven

EDUCATION

BSc Information Technology (Informatics and Computer Science) — **Nov/Dec 2026**
University of Johannesburg — Johannesburg

Matric Certificate — **2021**
Kutama Secondary School — Kutama

PERSONAL PROJECTS

Mbuyedzedzo POS | Java, JavaFX, SQL Server, Apache POI — **Git Repo**

- Built a point-of-sale system for small businesses covering sales, inventory, customer management and reporting
- Replaced the dedicated barcode scanner with a companion phone app that scans product barcodes through the camera
- Added licence-key activation to control which machines can run the software

Church Management System (AFM VFCC) | Java, JavaFX, Spring Boot, Kotlin, MySQL — **Git Repo**

- Designed a desktop system for member records, attendance, board meetings and welfare cases
- Built an Android app that syncs attendance and guest registrations to the desktop system over the local Wi-Fi network

NdalamoPDF | Java, JavaFX, Apache PDFBox, Tesseract OCR, C# — **Git Repo**

- Built a free PDF toolkit for Windows that works offline: merge, compress, convert, OCR, sign and redact
- Packaged it with a Windows installer and a Word add-in that adds Delete Page to the ribbon

EXPERIENCE

Volunteer Teacher — **Jan 2026 – Mar 2026**
Tshiungulela Secondary School — Limpopo, South Africa

- Taught Grade 9 Technology and Grade 11 Mathematical Literacy and Physical Science across multiple classes
- Planned lessons, exercises and assessments aligned with the CAPS curriculum for three subjects at once
